Andrew Cole, MD

Dr. Andrew Cole was born in Little Rock but was raised and went to college in Fayetteville, AR. He went in to the medical field because he loved the thought of helping people and the sciences fascinate him. He loves medicine and it challenges him. He is a fifth generation of Cole physicians. He chose OB-GYN because he wanted a specialty that he could grow old with his patients. He also feels that women are the best patients, because they are relational,

patient, kind and thankful. No other specialty allows you to help with a new life coming in to the world. He says it is awesome to experience the birth of a child with a young couple.

He studied undergraduate at University of Arkansas and then went to UAMS for medical school and residency. He was 4th in his graduating class and voted "Resident of the Year". He is a fellow of the American College of OB/GYN and a member of the Arkansas Medical Society.

Dr. Cole has been married to his wife Beverly for 26 years. They have two children who are both pursuing a career in medicine. In his spare time, he loves being outdoors, especially hunting, fishing and hiking. He loves spending time with his family; either at Razorback games or traveling. He has led and served on several medical mission trips to Belize.

He has been chosen as "Best OB/GYN Doctor" multiple times in local magazines, AR Times and on a national level. He is on the Conway Regional Board of Directors and is President of Conway OB/GYN clinic.

Dr. Andrew Cole is located at the College Avenue location. Call 501.327.6547 to schedule your appointment today.

About Us

At Conway Obstetrics & Gynecology, we focus on providing excellence in women's healthcare and wellness for each and every patient. There are many stages women encounter in relation to their health and well-being, and our team of medical professionals offer support at each of these stages.

Our practice was the first OB/GYN office established in Conway, and we have always incorporated the newest research and best treatment options for each individual patient. We stay on the cutting edge of technology and were the first in Conway to offer Da Vinci robotic surgery, in-office ablations, MonaLisa Touch laser as well as many other procedures.

Our nurse practitioner, Tracy Lamey, has established a great line of communication and trust with our patients. She offers the flexibility of quick work-in appointments.

We have a certified ultrasonographer on staff who is proficient at documenting problems for our patients experiencing pelvic pain or other symptoms. The physicians use these scans to deliver the appropriate care for each patient. Our ultrasound technician also uses our new 4-D ultrasound machine to allow our obstetric patients to see their baby for the first time. These special scans are offered with pictures and a DVD.

We are providers for most major insurance companies and our friendly staff will be glad to assist you with any questions you may have regarding your visit to our office.
