## Keitha Holland, MD

Dr. Keitha Holland was born in Booneville, AR and raised in Charleston, AR. She graduated from Charleston High School in 1993 as valedictorian of her class. Her mom was a nurse and she was always around individuals in the medical field. She likes to be busy and move around so she knew she wanted a job that allowed her to do so. She initially thought that she wanted to do pediatrics but after she had her OB rotation in medical school she never

looked back. She loves her job. Obstetrics and Gynecology gives her enough day to day variation with the mixture of surgery and clinic to fit her personality perfectly. She feels that delivering babies is one of the most exciting and moving experiences in most peoples lives.

She graduated Magna Cum Laude from Hendrix College with a degree in Biology. Her time in Conway made her feel connected to the people and she wanted to return after attending medical school. She is a member of the American Board of Obstetrics and Gynecology, American Congress of Obstetricians and Gynecologists and a member of the Arkansas Medical Society. She is a member of St. Joseph's Church in Conway.

She is crazy about her family. She is married to Wes and they have two children. She enjoys spending time with family and watching her kids play sports. She also enjoys exercising, watching Razorbacks, shopping and reading.

Dr. Keitha Holland is located at the Conway Regional Medical Center location. Call 501.327.9497 to schedule your appointment today.

## About Us

At Conway Obstetrics & Gynecology, we focus on providing excellence in women's healthcare and wellness for each and every patient. There are many stages women encounter in relation to their health and well-being, and our team of medical professionals offer support at each of these stages.

Our practice was the first OB/GYN office established in Conway, and we have always incorporated the newest research and best treatment options for each individual patient. We stay on the cutting edge of technology and were the first in Conway to offer Da Vinci robotic surgery, in-office ablations, MonaLisa Touch laser as well as many other procedures.

Our nurse practitioner, Tracy Lamey, has established a great line of communication and trust with our patients. She offers the flexibility of quick work-in appointments.

We have a certified ultrasonographer on staff who is proficient at documenting problems for our patients experiencing pelvic pain or other symptoms. The physicians use these scans to deliver the appropriate care for each patient. Our ultrasound technician also uses our new 4-D ultrasound machine to allow our obstetric patients to see their baby for the first time. These special scans are offered with pictures and a DVD.

We are providers for most major insurance companies and our friendly staff will be glad to assist you with any questions you may have regarding your visit to our office.
